Additional winter activities abound for families at the White Cap Fun Center (ice skating, arcade, tubing park) and don't forget the heated pool at the Grand Summit Hotel! 12-Hour Skiing and Riding

There is a saying that the sun never sets in the land of cool and it could not be better suited anywhere than Sunday River. Thanks to the resort's new 12-hour skiing and riding, you can keep on playing well into the evening. With 12-hour skiing and riding on weekends and most holidays, there's no need to rush to the slopes at sunrise and it doesn't matter if you have to work on a powder day. There's no need to wake the kids first thing in the morning for a full eight hours of skiing because with 12-hour skiing, you have the flexibility to ski during the morning, afternoon, evening, or all three. As the sun sets, there's no race for the last chair because at the end of the day, there is still plenty of night.
